Dated:.215.2015

It has been observed that the Night Inspection of the Depots has not been carried out since last few years, although such system was in vogue earlier. Night inspection of the depots by a team of officers belonging to other units is very necessary to get the feedback of different activities being carried out in the depots during the night.

All Regional Managers are, therefore, required to ensure that night inspection of each depot is carried out once in a month by a team of officers headed by a Depot Manager of any other depot.
